1. CUSTER STATE PARK

Experience the rugged beauty of the Wild West where buffalo still thunder across the earth and graze the open plains — especially during the park's annual **Buffalo Roundup and Arts Festival.** On the last Friday of September, the ground rumbles as crews drive in the herd of more than 1,400; meanwhile, 150 vendors showcase fine arts and crafts. The park's 71,000 acres invite you to hike, mountain bike, rock climb, ride horseback, cruise a scenic byway and fish in pristine mountain lakes. Stay in any of the park lodges and be sure to check out the exhibits at the Visitor Center.

>> EAT & DRINK

After a day of marveling at Custer State Park's dramatic granite peaks and vast prairies, refuel at one of the eateries in the nearby town of Custer. Grab a breakfast sandwich served on a flaky croissant at the European-inspired Feel Good Café. Enjoy the intimate fine dining of Skogen Kitchen or opt for creative pizzas & flatbreads paired with craft beers at Mt. Rushmore Brewing Company and The "Pounding" Fathers Restaurant. For dessert, indulge in an ultra-thick milkshake or a slice of justbaked pie at The Purple Pie Place.

INSIDER'S TIP: Daybreak and dusk are best for observing the signature color striations of this lunar-like landscape. For stargazers, the remoteness of this region is heaven. Inquire into Night Sky Viewing programs led by Badlands National Park rangers spring through fall.

4. BADLANDS NATIONAL PARK

Take in sweeping vistas of otherworldly landscapes and stunning panoramas of vividly colored buttes, pinnacles, spires and canyons at Badlands National Park. The 244,000-acre park — once known as Mako Sica (a Lakota phrase meaning "land bad") — features eroded land formations that reveal multicolored layers of various rock types: shale (purple & yellow), sand and gravel (tan & gray), iron oxides (red & orange) and volcanic ash (white). While you're here, drive the Badlands Loop State Scenic Byway and keep your eyes open for an array of wildlife, including eagles, covotes, pronghorn and bison. Since being given more room to roam, the resident bison herd numbers around 1,400. Spot individual bison and small groups along the park's Sage Creek Rim Road.

7. HISTORIC DEADWOOD

Step back into the days of the Wild West as you stroll down Main Street in Historic Deadwood — an entire town that's been designated as a National Historic Landmark. This former mining camp boomed during the gold rush of the 1870s, drawing larger-than-life characters like Calamity Jane and Wild Bill Hickok. (It's booming again now thanks to HBO's Deadwood: The Movie, a 2019 film based on the network's Emmy Award-winning series.) Start at local favorite Lewis and Clark Recreation Area for fun on the water followed by camping under the stars.

PLAN FOR A POWWOW

A powwow or wacipi (Dakota, Lakota and Nakota for "dance" and pronounced wa-CHEEpee) is a social and competitive gathering of tribes that's open to spectators. Each tribe usually hosts its annual gathering at a different time of year, so the chances are good that you'll be able to find one to attend during your visit. These multi-day gatherings sometimes include additional events (like the Rosebud Fair & Wacipi on the Rosebud Reservation near Mission). Elsewhere, watch for the **Sisseton Wahpeton Oyate** — the state's oldest powwow — in Agency Village, the Yankton Sioux Tribe's Fort Randall Casino **Powwow** in Pickstown and the **Black Hills Powwow** in Rapid City. Whatever gathering you choose to attend, don't miss the Grand Entry.

legging Burros, Custer State Park

WATCHABLE WILDLIFE

You've read about the buffalo of **Custer State Park**, but two South Dakota national parks also shelter free-roaming herds: **Badlands National Park** and **Wind Cave National Park**. At all three parks, watch for cinnamon-colored calves in spring, and other native species: diminutive prairie dogs, bighorn sheep, the pronghorn antelope and elusive elk, all perfectly adapted to South Dakota's Black Hills. There are also the beloved burros of Custer State Park. These donkeys were introduced in the 1920s to give pack tours within the park, but now roam freely (and often beg for snacks).

1. MOUNT RUSHMORE

Byway tunnels frame Mount Rushmore National Memorial. Get a closer look on memorial grounds.

Late May through late September, witness the **Evening Lighting Ceremony**. Park rangers present a spectacular program and use lights to illuminate the memorial.

2. NORBECK **WILDLIFE PRESERVE**

Norbeck Wildlife Preserve, a haven for game animals and birds, overlaps with Custer State Park and the Black Elk Wilderness. Discover trails and wildlife within its boundaries.

3. CATHEDRAL SPIRES & BLACK ELK PEAK

Hike into the Cathedral Spires, a towering show of granite pinnacles. The relatively short trek is prime for catching rock climbers on the ascent, too.

Connect from the Cathedral Spires Trail to summit Black Elk Peak. The peak is the tallest point east of the Rockies and named for a legendary Lakota medicine man.

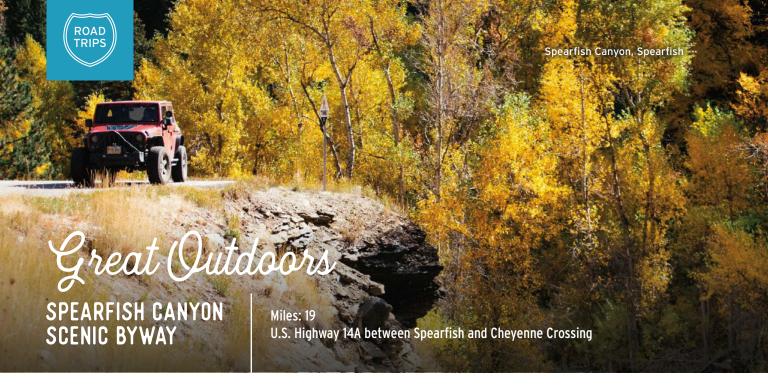

4. NEEDLES HIGHWAY & NEEDLES EYE

Navigate tight crossings through the rocky formations of Needles Highway, the byway's most thrilling 14 miles.

Upon reaching Needles Eye Tunnel and formation, walk the paved trail all the way to the base for a photo-worthy view.

5. SYLVAN LAKE

Back on the byway, head to Sylvan Lake and rent watercraft or hike around the lake for a different perspective.

1. SPEARFISH REC PATH

The Spearfish Canyon trailhead is an easy entry point for accessing this 7.5-mile path along scenic **Spearfish Creek**. Follow it to points of interest, including area parks and the **Spearfish City Campground**. You'll be accompanied by walkers, runners, cyclists and the occasional long-boarder.

2. SPEARFISH FALLS TRAIL

It takes slightly more than 10 minutes to reach this trail's namesake, but you'll want to linger. The trail transports you to the bottom of **Spearfish Canyon**, creating an aweinspiring view of the falls. Listen for the rush of water as you approach.

3. '76 TRAIL

Test your mettle on this challenging hike to the rim of **Spearfish Canyon**. The round-trip trek measures just 1.5 miles, but the steep uphill terrain is rated difficult. For experienced hikers, the panoramic view from the top is worth it.

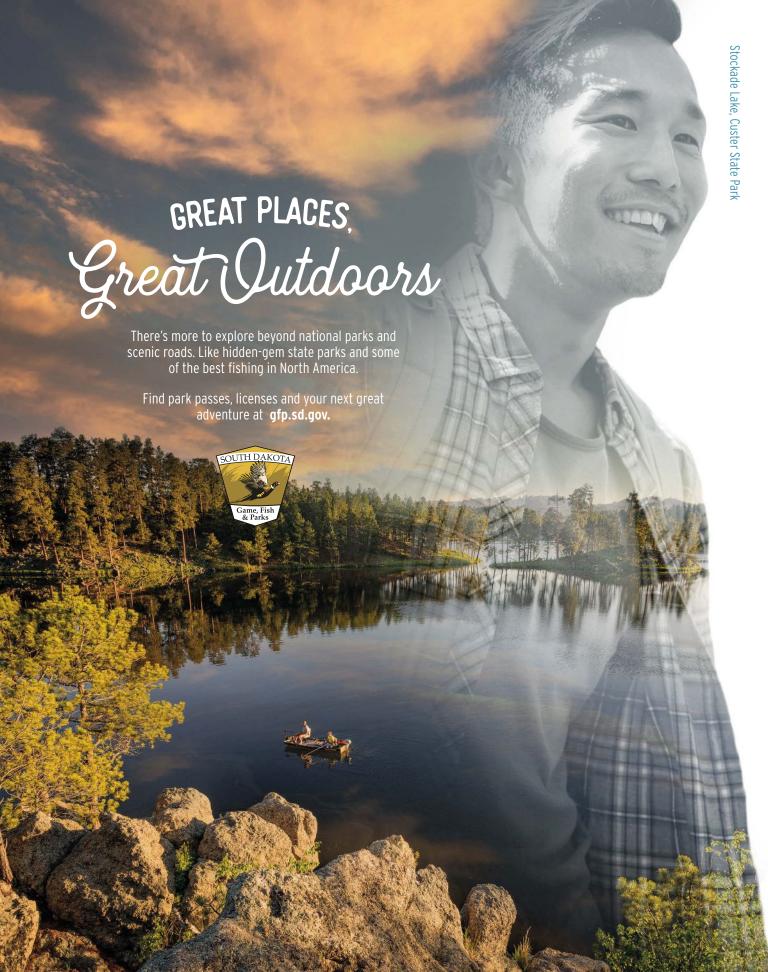

4. ROUGHLOCK FALLS

Marked paths point you to the state's most picturesque waterfall. Along the 2-mile round-trip route, pause to enjoy a picnic, take photos and watch for wildlife — especially the rare American dipper, a bird that can walk and swim underwater.

5 WAYS TO PLAY PALEONTOLOGIST

Long before humans explored South Dakota, dinosaurs roamed the land. Explore the evidence at these attractions throughout the Black Hills and Badlands: [1] During summer months in Hot Springs, register for the Jr. Paleontology Program at The Mammoth Site, where the largest-ever concentration of North American Columbian mammoths, as well as three woolly mammoths, have been unearthed. [2] Marvel at the massive bones of mastodons and "Debby Sue," the largest Tylosaurus found in South Dakota, at World Fossil Finder Museum in Hot Springs. [3] View mounted skeletons of dinosaurs, mammals, marine reptiles and fish at the free Museum of Geology at Rapid City's South Dakota School of Mines & Technology. [4] Find a similar treasure trove at the Museum @ Black Hills Institute in Hill City. [5] Watch professionals at work in the Fossil Preparation Lab in the Ben Reifel Visitor Center at Badlands National Park.

WITH ITS SPRAWLING PRAIRIE LANDS, LUSH FORESTS AND ABUNDANT RIVERS & LAKES, SOUTH DAKOTA IS THE ULTIMATE DESTINATION FOR YEAR-ROUND HUNTING AND FISHING. THREE LOCALS SHARE SOME OF THEIR INSIDER TIPS AND TRICKS FOR A SUCCESSFUL EXCURSION IN THE GREAT OUTDOORS.

By Tammy Bashore, Writer/Photographer/ Avid Outdoorswoman

PHEASANT HUNTING IN FALL AND WINTER

South Dakota is worldrenowned for its pheasant hunting, with the average annual harvest of more than 1 million roosters.

Prepping for the hunt is quite possibly the most important step. Start by purchasing your hunting license and downloading the SDGFP app "Go Outdoors South Dakota." I recommend getting a paper copy of the public land maps - it's free and available anywhere licenses are sold.

We absolutely love hunting after it snows because the minute you step into the field, you'll be able to see — or not see pheasant tracks, which will give you immediate confidence in that hunting spot.

Remember: be patient, persistent and flexible. Peruse the public hunting atlas to find the pieces of public land closest to you and determine how far you are willing to go to increase your chances of

success. Being prepared with the right gear and knowledge, you'll be one of those hunters contributing to our incredible harvest number. However. hunting is about so much more than the actual harvest. Experiencing our natural world as a participant and feeling an intimate connection to place? Priceless.

Gear Recommendations: Hat. jacket for those cold days, durable pants, water-resistant boots and first aid kit. For the dogs, bring collars, protective vests and a jug of water.

By Jeff Gutenkauf, South Dakota Game, Fish & Parks

SPRING TURKEY TIPS

Spring is simply the best time to hunt turkeys. We like to locate birds in the evening and set up on them the next morning in the dark. Walking creek bottoms on the prairies or in the Black Hills trying to locate birds can be very productive. I like to call every couple hundred yards and wait for 20 to 30 minutes. If nothing comes in, keep moving down the creek.

Set up away from the roost tree (100 to 150 yards at a minimum) either sitting in a blind or with your back against a tree. When hunting out of a blind, you have more ability to move around undetected. We try to sit on the way to their morning feeding area or their normal travel pattern. I usually set up a couple hens and maybe a jake decoy. Once I hear the hens make their morning yelps, I then let out a few soft yelps with my mouth diaphragm call. This way, they know another hen is nearby. I often imitate a turkey fly down with a turkey wing that I will beat against my thigh. This will let them know another turkey has flown down not far away. Good luck to all of you in the spring.

Gear Recommendations: Full camouflage with face mask, lightweight gloves, hat, bug spray, comfortable walking boots and a turkey vest to carry tools.

By Nick Harrington, South Dakota Game. Fish & Parks

YEAR-ROUND FISHING

South Dakota is home to yearround fishing opportunities, ranging from the Missouri River reservoirs across the central part of the state, the Glacial Lakes region in the northeastern area and the streams of reservoirs within the Black Hills and western South Dakota.

Walleye, the state fish, is often the star of the show. Anglers eager to get their boats in the water often enjoy open water fishing below Oahe Dam, Big Bend Dam and Fort Randall Dam. Walleyes will move into the upper end of these reservoirs in the springtime to spawn where they are often eager to bite for anglers fishing with jigs and minnows or trolling crankbaits across the main channel.

Anglers who love ice fishing can strike gold in the northeast corner of the state, finding jumbo yellow perch. Walleye, of course, are also eager to bite an ice angler's line, especially in the morning and evening hours, while perch can keep anglers busy on the ice throughout the entire day.

Meanwhile, the streams of the Black Hills hold excellent numbers of trout. Anglers who love to fly-fish can enjoy the beauty of the area while wetting a line in numerous streams.

Culinary surprises are what South Dakota does best. From low-key mom-and-pop shops (that just so happen to win awards) to chef-driven concepts that astound diners with creative concoctions, you never know what you might find when you sit down for your next meal. Taste your way through a few of our favorites.

BOKUJŌ RAMEN, RAPID CITY

Food Network star Justin Warner and Brooke Sweeten infuse their Japanese-style ramen dishes with a South Dakota twist, using locally sourced ingredients to create only-in-SD flavors such as broth made with simmered bison bones from Wild Idea Buffalo Co. and mushroom miso ramen piled with fungi from Black Hills Mushrooms.

LALIBELA RESTAURANT, SIOUX FALLS

For two decades, Mulugeta and Marta Endayehu have been serving up Ethiopian delicacies from lamb and beef stews to vegetarian dishes of spiced lentils and chopped collard greens, which diners scoop up with spongy, tangy injera bread. No wonder this humble hot spot was featured on Guy Fieri's *Diners, Drive-Ins and Dives*.

SKOGEN KITCHEN, CUSTER

Artful creations, experimental flavors and abundant textures weave their way through the inventive menu at this Scandinavian-influenced restaurant owned by chef Joseph Raney. Here, you'll find unexpected meats such as rabbit and veal cheeks, as well as gourmet add-ons such as truffle and foie gras.

South Dakota Chislic with Horseradish Dippin' Sauce

Submitted by Chef Dan Brown from Mitchell, South Dakota

A South Dakota tradition brought to the southeast corner of the state by German Russian immigrants during the 1800s, chislic is a dish of juicy, seasoned cubes of meat that are typically eaten with toothpicks and paired with crackers or fries. Make this local specialty for yourself.

Ingredients

Mutton (traditional), venison or beef cut into half-inch cubes

Dippin' Sauce Ingredients

1 cup sour cream 1/4 cup horseradish 2 tablespoons mayonnaise Salt and pepper to taste

Heat oil in a pan to 350° and cook meat for 1 to 3 minutes, depending on personal preference. (South Dakotans like theirs rare.) Dump meat into a bowl lined with paper towels to soak up excess oil, and immediately sprinkle with garlic salt. Toss to coat evenly. For the sauce, combine all ingredients in a bowl and whisk well to combine. Grab a toothpick, some club crackers and a cold beer. Enjoy.

IN THE HEART OF THE STATE

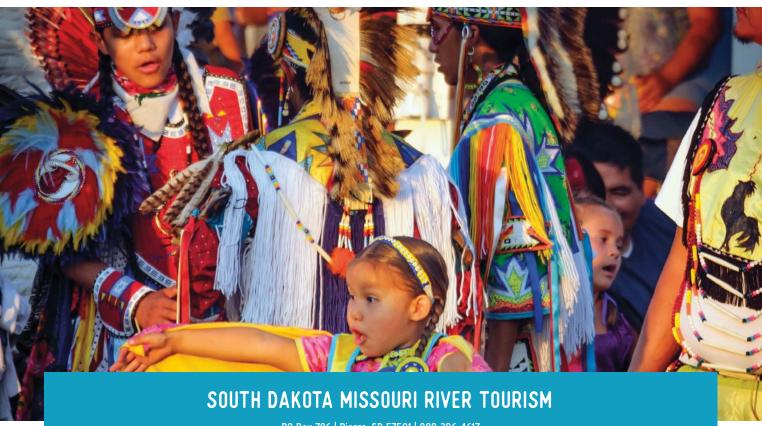

Welcome to Central South Dakota, where western culture begins. Here, history is remembered and traditions are continued, from museums' preserved artifacts and original 1800s structures to rodeos and powwows. Explore the riverside and great plains towns, experience the five tribes of the Oceti Sakowin, traverse the outdoors over land or water. Follow the famous explorers Lewis & Clark trail, or ride the mountain biking trails criss-crossing the rolling hills along the Missouri. Find excellent hunting along the river. It creates ample and varied habitats for waterfowl, big game, and small game wildlife. Visit South Dakota's capitol, Pierre, its beautiful 100-yearold capitol building and grounds spread with monuments dedicated to our state's heroes and historical figures.

FOLLOW THE RIVER - SAIL THE LAKES

Life here revolves around the Missouri River. Divided by hydroelectric dams into four large reservoirs, the river provides various habitats for fishing enthusiasts and water sports recreation. Boats of all kinds cross these waters: from sails to motors, family pontoons to solo ski jets, kayaks, canoes, and paddle boards, there is a place for every kind of watercraft. Anglers love the world-class fishing up and down the river; catch walleye, perch, pike, catfish, even salmon in the deep, cold waters of Lake Oahe.

STARGAZING: SEE THE MILKY WAY GALAXY | ANYWHERE

The Missouri River region is sparsely populated even in its biggest cities. Driving just 15 - 20 minutes into the countryside, away from any dwellings, on a clear moonless night will reveal a sky full of stars and the Milky Way Galaxy, and if you're lucky, the Northern Lights.

Lake Oahe, Lake Sharpe, Lake Francis Case, Lewis & Clark Lake

Four beautiful lakes are at the center of activity for water sports and recreation along the Missouri River. The lakes cross the line between the forested flat-lands of the humid eastern states and the arid grassy plains of the foothills and mountains of the dry western states, giving each a distinct landscape.

STATE 4-H RODEO

RODEOS | CENTRAL SD

There are dozens of rodeos that take place annually across the state, varying from Professional Rodeo Cowboys Association (PRCA) to 4-H and high school-level events. With so many opportunities, it's easy to "cowboy up" and add a South Dakota rodeo to your next trip's itinerary.

SUNFIOWER FIELDS | CENTRAL SD

In late summer and early fall, sunflower fields surround the river. Sully County just north of South Dakota's capitol is the nation's top producer of sunflowers. Driving through the area will give you stunning views of bobbing heads of gold for miles around - they are the perfect stop for a guick photo-shoot.

Fishing Central South Dakota

The reservoirs of the Missouri River offer vast expanses of open water along with secluded channels and remote bays. With so much area to explore, Missouri River anglers enjoy uncrowded waters and plenty of fish species to chase. Local fishing guides can be found up and down the river, individual guides as well as resort and group guides.

SPECIES

Walleye: The most popular fish on the river, it can be found in any area.

Catfish: A variety of species live in the Missouri, some favoring the warmer waters of Lewis & Clark lake.

Chinook Salmon: Fisheries introduced this variety of salmon to Lake Oahe in recent years. The chinook salmon live in the cold, deep waters of the lake for most of the year, only ranging north in winter. Because of the dams, chinook salmon is only found in Lake Oahe.

Northern Pike: This large fish is very common along the Missouri. They are an ambush predator found in vegetation or submerged trees

Burbot: This fish loves the big Missouri River reservoirs. They spawn in the fall and are the only freshwater member of the cod family.

Largemouth Bass: Abundant in warm water ponds, lakes and impoundments especially those containing submerged vegetation.

Small and Bigmouth Buffalo: The largest species in the "sucker" family, and one of the longest-lived, capable of living 127 years.

Rainbow Trout: Fisheries stock this trout all along the river.

Yellow Perch: Yellow Perch are found statewide in cool water habitats of rivers, lakes and impoundments.

FIND YOURSELF HERE

Have you ever experienced a South Dakota sunset? Have you felt the sun's warm glow on your skin as it settles on the horizon and casts hues of pink, orange, and purple across the vast open sky? In our neck of the woods, you can see for miles (and miles and miles). And we love it. While the sunsets get most of the glory, the sunrises are also breathtaking and worth waking early for.

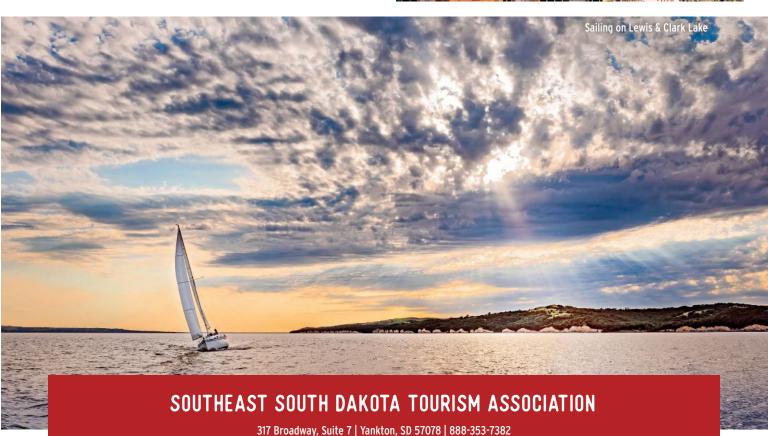

The end of the day is a great time to relax, reflect, and find yourself. After a full day of exploring southeast South Dakota, you'll need a minute to put your feet up, look through your photos, and decide what adventures are in store tomorrow.

SMALL REGION, LOADS OF OPTIONS

With our region spanning just two driving hours in each direction (yes, we use hours instead of miles to mark distances here), you won't have to go far to explore our attractions. (Parents of young kids, you're welcome.) So get your highlighter out and start marking up this guide to plan your next getaway!

Year-Round Fun

THERE'S A LITTLE SOMETHING FOR EVERYONE DURING EACH SEASON

SPRING

Grab your clubs and your best plaid sweater vest. You will want to take advantage of golfing on our top-rated courses. Springfield's 9-hole course, perched atop the Missouri River bluffs, is #1 in the state. Grand Falls Casino and Golf Resort has an award-winning course designed by the famous Rees Jones. If you're after gorgeous lake views, head to Madison to The Lakes and Madison Country Club. Or change it up and try a modern spin on golf at Great Shots, a state-of-the-art indoor/outdoor interactive driving range. With heaters on the platforms, it's perfect for those spring days that can be a bit chilly yet!

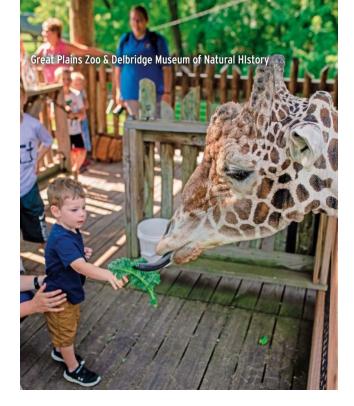

Spring weather in our area can be...unpredictable. Rain, snow, sleet, hail, or sunshine could happen anytime. A great solution to unknown weather conditions is spending the day playing and creating at the **South Dakota Children's Museum**. With exhibits and activities inside AND outside, you'll have great options no matter what the weather decides to do that day.

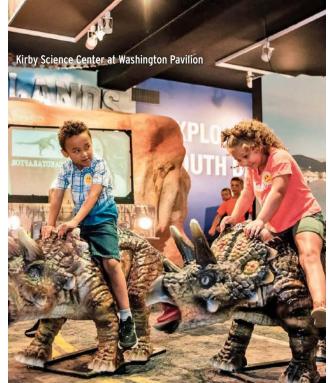

SUMMER

Beat the summer heat by spending the day at Splash Central Waterpark, Wild Water West Waterpark, or The Huether Family Aquatics Center. These loaded hot spots are what kids' summertime dreams are made of! But that's the funny thing, too... they aren't just for kids. Adults can relax on a lazy river, under a shady cabana, or enjoy an adult beverage at a swim-up bar.

Bring your family to **The Outdoor Campus in Sioux Falls** for handson experiences in hunting, fishing, outdoor skills, and conservation science. Classes are free and held year-round. While you're there, explore the **Butterfly House & Aquarium**, an extensive outdoor playscape, and 2+ miles of walking trails.

Kids, parents, and grandparents will all love to stop at the **Gavins Point National Fish Hatchery**. This facility has free admission and 40+ mostly local species of live fish, amphibians, and reptiles on display. This destination is connected to Yankton's extensive trail system that takes you around Lake Yankton, along Lewis & Clark Lake, and throughout the city, so get your bikes out and ride!

FALL

While most people like to visit zoos in the summer, we recommend visiting the **Great Plains Zoo and Delbridge Museum of Natural History** in the fall and winter! That's because many of their main attractions are cold weather animals, like brown bears, amur tigers, snow leopards, and snow monkeys, to name a few. Look for a new lion exhibit in 2024.

Have you ever tried to navigating through a maze of 6-foot corn stalks with just a flashlight and the moon to guide you? **Heartland Country Corn Maze** offers both day and night hours during the fall season. Get lost in the corn at **Mazing Acres Pumpkin Patch**, where they have a challenging maze along with a short, easy maze for beginners. You'll also find a vast variety of activities for kids of all ages, from bouncing pillows to tube slides. Sweaters, boots, and pumpkin spice lattes are highly recommended.

Butterfly House & Aquarium, boasting tropical butterflies and marine aquariums, makes for a fantastic destination all year round. Go in the fall though, so you can enjoy the beautiful autumn weather by spending time at the neighboring Sertoma Park. This Sioux Falls Parks and Recreation public park has a great selection of playsets and picnic shelters, so pack your cooler and stay for lunch.

Love archery? Visit the world's largest archery center, the **National Field Archery Association**, and give it a go on their indoor or outdoor ranges. Beginners welcome!

WINTER

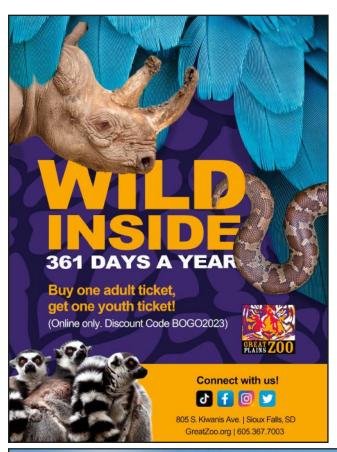

Winter may be a little cold here, but don't let that stop you from experiencing the beauty of the sun sparkling off snow-covered landscapes and frosty trees. It's downright magical. One of the many ways to get everyone outdoors is by going to **Great Bear Recreation Park** for a day of downhill skiing/snowboarding, snow tubing, snowshoeing, and cross-country skiing.

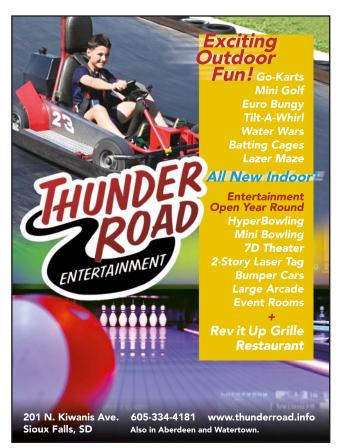

Looking to have fun indoors with kids of any age, especially teens? You'll definitely want to explore **Thunder Road**. In addition to their outdoor mini golf and go karts, there's an indoor facility with axe throwing, a laser maze, 7D theatre, hyperbowling, mini bowling, bumper cars and a huge arcade.

The Kirby Science Center at the **Washington Pavilion** makes learning feel like playing. With 100+ interactive, hands-on exhibits, it's an excellent way for kids to exercise their bodies and minds on cold (or any) days. Enjoy the on-site cafeteria and catch an educational movie on the Wells Fargo CineDome where you're right in the middle of the action.

Adults can play, too! **The Boat House** features indoor axe throwing, mini bowling, golf simulation, and more. Challenge your friends to see who buys the next round! Is gambling more your vibe? Head to **Royal River Casino** or **Grand Falls Casino** for a fun night of entertainment.

SOUTH DAKOTA'S ONLY ALL-INCLUSIVE

Downtown Districts

Who doesn't love strolling around an adorable downtown filled with unique shops, delicious cafes, and the sounds of live music rolling out of bustling pubs and breweries? From our largest city down to our small rural towns, there are many things our communities have in common, one of them being a great downtown!

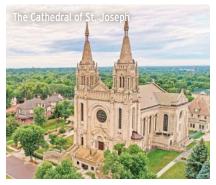

DOWNTOWN SIOUX FALLS

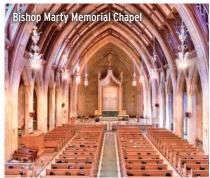

Downtown Sioux Falls has it ALL! Historical architecture, public art, unforgettable events, shopping, dining, breweries, parks, a public trolley, and more collide to make this downtown destination popular. If you're around on the first Friday evening of the month, be sure to stroll around and take it all in. You'll find everything from art receptions, live music, retail deals, food & drink specials, and more!

SMALL TOWNS, GREAT DOWNTOWNS

Many of our communities have less than 15,000 people calling them home, but that doesn't stop them from having downtowns we love. Cities like Mitchell, Madison, and Vermillion (a few of our college towns) have the best shopping and dining options. Dell Rapids boasts a beautiful historic movie theatre that's still in operation today. Yankton's Meridian District has a two-story Meridian Pedestrian Bridge over the Missouri River that you absolutely must walk or bike if you get the chance.

CHURCH **ARCHITECTURE**

The Cathedral of St. Joseph, commonly known as the Sioux Falls Cathedral, is a beautiful Catholic church built in 1919 atop one of the tallest hills in the city. Its grand pillars and stained glass windows are a sight to be seen.

Bishop Marty Memorial Chapel is tucked right between Sacred Heart Monastery and Mount Marty University, also atop its city's most prominent hill. Built primarily out of sandstone in 1950, this fantastic example of Gothic architecture is home to the Yankton Benedictine Sisters.

Both churches offer guided tours. Make sure you schedule those in advance. If you want to just pop in and take a look around, feel free! Be careful not to interrupt a mass or service of some kind!

Public Art

Road trips, bike rides, and downtown strolls are always better when there's gorgeous artwork to look at.

Downtown Sioux Falls has an impressive sculpture walk with over 69 pieces to enjoy. It changes every May so you can enjoy new work year after year. Amazing paintings and murals are scattered throughout our region, like this one in Vermillion. They make great selfie backdrops! Tag #SESouthDakota when you share on social media.

Lat & Drink

1. NIGHTLIFE

Rooftop bars, dance clubs, cigar bars, taprooms, and more can all be found close to each other in the **Downtown Sioux Falls** area. Sometimes, we prefer to hit the country bar scene instead. Head to any of our rural communities and ask where the best bar is. Get to know the friendly faces around you over a glass of red beer and maybe even a little karaoke.

2. COFFEE SHOPS

We love our coffee here. (But come on, who doesn't?) Many of our small towns have a locally owned coffee shop that's perfect for getting a great-tasting cup of Joe. These are great places to also get recommendations on the best sites, attractions, eateries, and more. If you're in Yankton, stop at Muddy Mo's Coffee House, owned by **South Dakota Magazine**, for a memorable experience.

3. AWARD-WINNING PIZZA

The Food Network named The Festus from Charlie's Pizza House 'the best slice of pizza in South Dakota' three times! With locations in Yankton and now Sioux Falls, you have twice the opportunity to experience South Dakota's first pizza house.

4. DINING EXPERIENCES

Whether it's dining amidst walls packed with South Dakota antiques, catching a game and a mouthwatering burger at a local sports bar, or eating outside in an igloo when it's 10 degrees out (shown here), we have unforgettable experiences to go with your delicious food.

If you're near Falls Park, we recommend grabbing a bite at the Falls Overlook Cafe. The historic building overlooking the falls is now home to a bright cafe with tasty food and yummy Stensland Family Farms ice cream.

NOTHING BEATS A SOUTH DAKOTA STEAK

We hate to brag, but...we know beef. While you're here, you MUST treat yourself to a tender, juicy South Dakota steak. Leave the cooking to the experts by visiting one of our many rural steakhouses, or take on the challenge of grilling at your campsite or vacation rental. Just don't even THINK about using ketchup with your meat!

Schade Vineyard & Winery

There's something special about enjoying a drink right where it is made. Seeing and smelling the ingredients, meeting the masterminds behind the creations, and learning about the inspiration that sparked their latest batch makes the experience one to remember.

BREWERIES

Get a taste of Southeast South Dakota at our local craft breweries. IPA fanatics, sour sippers, and lager lovers you'll all find something to please your palates when you explore our options. Relax in the taprooms, take in the scents of hops and yeast, and strike up a conversation with the brewers if you can.

WINERIES

Head to the countryside to find some of our region's best wineries. Take a tour of the vineyards, pick some grapes and sample the many flavors of wine available. Attend a grape-stomping event for a robust hands-on (or is it feet-on) experience! Just don't wear your favorite white pants. Many wineries hold special events all year long. Visit our website to plan your trip around one.

DISTILLERIES

Head to **Vermillion** to sample some authentic, South Dakota-made liquor at **Valiant Vineyards & Distillery**. From bourbon and rum to rye whiskey and apple brandy, there's something for everyone's taste. Try the vodka in one of their famous Monster Marys. Take a photo before you drink it, or no one will believe when you describe it!

History Comes to Life

FIND YOUR INNER NATIVE, EXPLORER AND PIONEER SPIRIT WHEN YOU EXPLORE WHAT LIFE WAS LIKE FOR OUR ANCESTORS

Do you ever wonder what it was like to be one of the first people to make a home in our region, looking out for miles across the wide-open prairie and saying, yes, this is the place? With a mix of handson learning, and museums filled with authentic artifacts, there's something for everyone when exploring our beginnings.

LAURA INGALLS WILDER

Laura Ingalls Wilder's "Little House" books come alive when you explore **DeSmet** and experience our pioneer heritage first-hand. Covered wagon rides, a one-room schoolhouse session, and hands-on homesteading activities will have you feeling like you've been transported back to 1880. Don't worry; the plumbing has been updated for your comfort.

PIONEER TOWN

At **Prairie Village**, you can walk down a turn-of-the-century main street and explore the ins and outs of over 40 historic buildings. Ride one of the world's last remaining steam-powered carousels that has been restored to its original condition and their steam-powered train around the entire campus.

LEWIS & CLARK

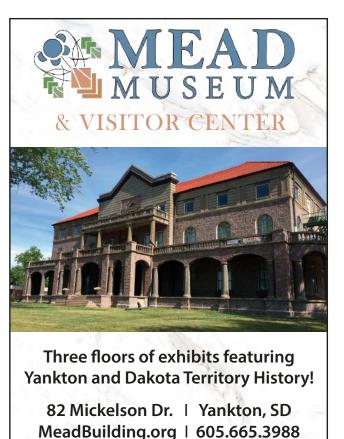

Stand where Lewis and Clark stood at **Spirit Mound Historic Prairie**, just six miles north
of **Vermillion**. This is one of the many spots
in our region that the Corps of Discovery
passed through in 1804. Visual displays
about their journey can be found at the

Lewis and Clark Visitor Center and the Mead Cultural Education Center.

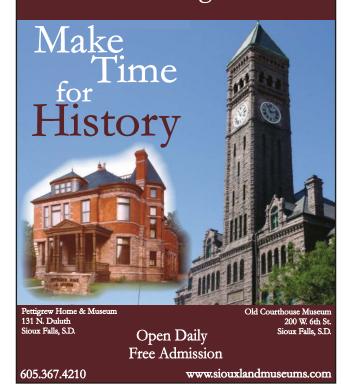

NATIVE AMERICAN ROOTS

Before there were one-room schoolhouses and dusty saloons, there was the Sioux Nation. As of 2022, Native Americans make up more than 15% of South Dakota's population. Experience the rich heritage of nine Sioux tribes when you explore our historical sites, museums and art galleries. Explore **Prehistoric Indian Village**, a 1,000 year old Indian village with a live archeological dig site. It is believed that there are 80 buried lodges on thi site and work continues today to unearth them.

Sioux Quartzite

A GEOLOGICAL TREASURE

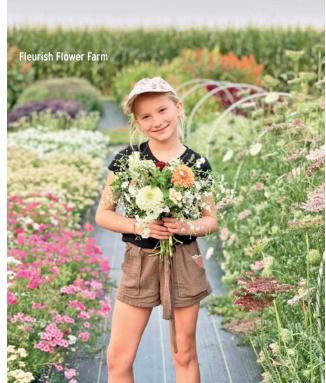

Look around the region, and you'll think you're wearing rose-colored glasses. A metamorphic rock unique to this area that's over 1.6 billion years old and just about as hard as a diamond can be found around every corner.

The hues of this rock are primarily variations of pink tones, giving it the nickname "rose stone" or "pink quartzite." Many historic buildings stand tall and strong because they are made with this durable stone. The stone is exposed in some areas, like Garretson's Split Rock Park. In other places, the deposit rests several hundred feet below surface soils.

When you find a building made with this material, post a photo and tag us! #SESouthDakota

On the Farm

FORGET THE MUD BOOTS...ALL YOU NEED IS A SPIRIT OF ADVENTURE

THE ANIMALS

It's true: we have a lot of cows here. Get to know where your dairy products come from and how they're made when you visit Dimock Dairy Cheese Store, Farm Life Creamery, and Stensland Family Farms. Don't leave without sampling cheese and ice cream since that's the best part!

Good Earth Farm is where animal lovers need to be. Meet their hogs, chickens, ducks, miniature steer named T-Bone, and his best friend, the pony. Learn about the history of the farming and cattle industry with hands-on exhibits at the Stockyards Ag Experience Barn.

THE CROPS

Flower lovers need to visit Fleurish Flower Farm and Prairie Heirloom Farms. The fields of beauty go on for days! And the amazing aromas? That's something you have to experience yourself. Pick your own flowers and take photos with some of the best backdrops around.

Tour the market gardens at Prairie Heirloom Farms to see a colorful twist on the produce varieties that grow best in

our region: tomatoes, sweet corn, broccoli, squash, and more.

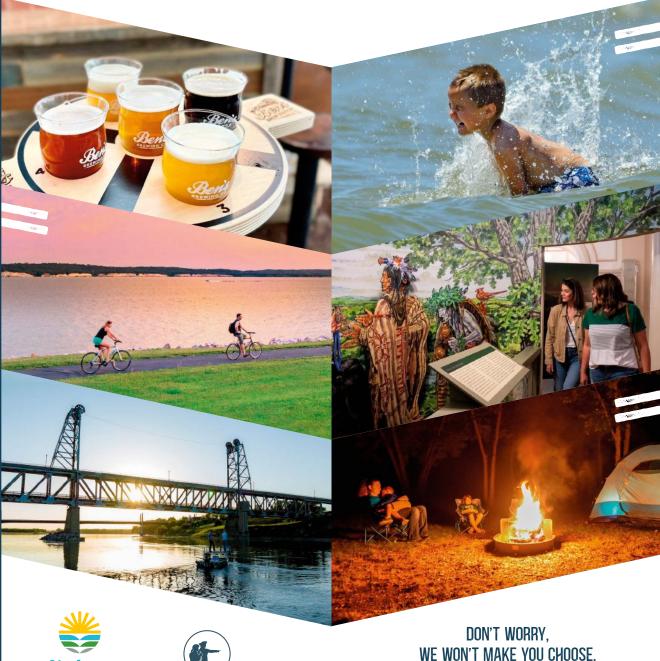

Many of our wineries offer access to their vineyards, and 6th Meridian Hops Farm is the place for beer-lovers to see hop production in action. Stay for mouthwatering food truck dishes, live music, and beers on tap while you relax in the sun.

CAN YOU HEAR THAT? THE CAMPFIRE IS CALLING!

How great does it feel to leave the hustle and bustle of your day-to-day life behind? To unplug and unwind in the beauty of nature? To crack a cold one or roast a marshmallow over an open fire? We love camping and hope you do, too, because our region is full of great places to set up camp.

CAMP WITH A WATERFRONT VIEW

Camping is great. But camping by water is even better! Over 80% of our campgrounds have access to water, whether it's a place to fish, swim, or put your boat in. If having that waterfront view is vital to you, look for campgrounds with that option.

ROUGHING IT

Some people just don't want neighbors when they're camping, and we understand that. If your picture of the perfect camping trip includes getting there by kayak with the river being the only running water, make plans to visit **Green Island** and **Goat Island Recreation Areas**. These primitive campsites will be a true adventure!

RELAX WITH RV AMENITIES

If 'home' is where you park it, we have options for you. Those who camp with the amenities of an RV are welcome at all of our campgrounds accessible by land. Most of our campgrounds offer numerous electric sites to keep the lights on and the refrigerator cold!

TO DISCOVER MORE

CAMPING CABINS

It's a lot of work to get ready for a camping weekend! Minimize some of your preparation time by booking a camping cabin, available in many of our state parks and private campgrounds. These cabins will get you out of the elements when you need to be without hauling an RV or pitching a tent. Sounds like a win to us!

BOOKING YOUR SITE

Around half of our campgrounds are South Dakota State Parks or Recreation Areas, so you'll need a pass to get in. Campsite reservations open 90 days before your camping date for these locations. They go quickly, so be sure to set a reminder to book them!

Happy Trails

BRING YOUR SHOES. WATER BOTTLE. AND CAMERA, LET'S GO!

Find yourself immersed in nature and all of the relaxing sights, smells, and sounds that come with it. Our region offers a wide variety of trails to fit your style. Experience them on a bicycle, horseback, snowmobile, cross-country skis, or on your own two feet.

THE SCENERY

If unique landscapes are at the top of your wish list when looking for a great trail, boy, do we have a couple you will want to see. We suggest you head to Palisades State Park where irregular Sioux quartzite formations tower over a flowing creek. Bring your gear! These spires and cliff walls offer a variety of routes for any level climber. We also recommend Gavins Point Recreational Trail and Chalk Bluff Multi-use Trail at Lewis & Clark Recreation Area.

These trails follow the chalkstone bluffs along the Missouri River, and there are opportunities along the way to get great water views. Pro tip: explore these trails at sunset and experience the breathtaking golden glow of the chalkstone bluffs.

ATV TRAILS

Sometimes it's more fun to go fast. **Talsma's Trail Park,** along the bluffs and ravines of the Missouri River, is THE place to kick up dust and mud with your ATV.

WINTERTIME WANDERING

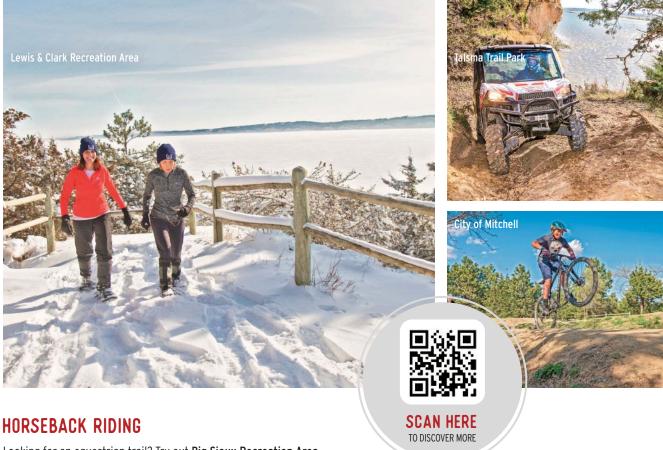

When the snow falls and the frosty trees sparkle, our region turns into a winter wonderland. It can feel downright magical when you get to be the first one to explore an area with fresh powder. Experience places

unseen from the road when you snowshoe or cross-country ski. Many of our recreation areas offer trails perfect for this that start and end at heated warming shelters.

If you snowmobile, you're in luck! Southeast South Dakota has hundreds of miles of snowmobile trails that make up the East River Trails System. For maps, visit qfp.sd.gov/snowmobiling.

BIKING

See more in less time on your bike! Some routes are smooth, paved, and offer a relaxing, scenic ride. Others are hilly dirt trails that will challenge your abilities and get your adrenaline pumping. Rent a bike from the City of Mitchell, ACE Bike and Fitness, or Hotel on Phillips, to name a few.

Looking for an equestrian trail? Try out Big Sioux Recreation Area and Clay County Park. If you're also looking to camp with your horses, we recommend Lewis & Clark Recreation Area, Newton Hills State Park, and Union Grove State Park.

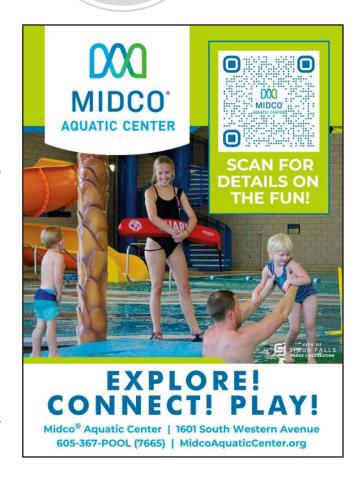

HISTORY

Spice up your hike with a bit of history when you visit Adams Homestead & Nature Preserve, Big Sioux Recreation Area, and Beaver Creek Nature Area. The historic buildings at these locations are a fun addition to a beautiful hike. Head to Spirit Mound to stand where Lewis and Clark stood 200 years ago.

BIRDWATCHING

Did you know that eastern South Dakota is a stopping place for millions of birds following the Central and Mississippi migratory flyways? The variety of habitats this area offers (woodlands, wetlands, rivers, and grasslands) is the perfect environment for over 300 species. So pick up a pair of binoculars, download our birding guide, and head to our trails to see some beautiful birds in their natural habitats! We recommend starting at Union Grove State Park or Newton Hills State Park

A Water Wonderland

BEING AROUND WATER IS GOOD FOR YOUR MIND, BODY AND SOUL

If the first things that come to mind when you think of Southeast South Dakota's landscape is cornfields and pastures, you wouldn't be wrong. While our corner of the state is proud of its agricultural industry, we are also home to A LOT of water!

With 175 lakes and three major rivers, there are really great ways to enjoy the water and all of the beauty, serenity, and recreation that goes with it!

PADDLING

Immerse yourself in the beauty of Southeast South Dakota by paddling. Pair your canoe or kayak outings with fishing, swimming, and camping. These adventures can be a couple of hours or an entire week. Make a plan, check regulations, and know safety tips for our area before you go.

BOATING

What's better than having a boat? Having friends with boats! And we have some great open waters to take that boat for a spin. Most of our state parks offer lakes that are great for skiing, tubing, wakeboarding, you name it.

If it's sailing you're into, you'll want to venture south to Lewis & Clark Lake, where the open water and wind speeds are ideal for sailing.

SWIMMING

Spending a summer day at the beach is how great memories are made. Pack a picnic, some sand toys, and a floatie. Head to Lewis & Clark Recreation Area to find numerous beaches to choose from. Lake Herman near Madison and Lake Vermillion near Montrose are also great options for swimming waters.

RIVERS

THE BIG SIOUX RIVER

The Big Sioux River flows through our entire region, from Brookings south to the Missouri River. Make plans to paddle The Big Sioux River in the spring or summer when water levels are high. Some paddlers favor the segment from Lien Park in Sioux Falls to Newton Hills State Park.

We suggest using the Jay Heath Canoe and Kayak Trail, a map consisting of launch sites and campgrounds along the Big Sioux River. It also has some general information about the river that's super helpful! Are you an experienced paddler looking for a challenge to get your blood pumping? Look no further than Split Rock Creek, where you can white-water paddle after spring and summer rains increase the water flow. The elevation drops 130 feet in eight miles along this route.

VERMILLION RIVER

The Vermillion River is a scenic run from Centerville south to the Missouri River. We recommend exploring this in the fall when the colors are especially showy.

JAMES RIVER

The James River is a curvy prairie stream that meanders through our countryside land-scape. This route is suitable for beginners as it's slow-moving and relatively shallow.

MISSOURI RIVER

Did you know that two segments of the Missouri River are managed by the National Park Service? Part of this national park can be found in our region. Exploring this part of the river is like taking a step back in time. The river is wild, untamed, and continues to flow as nature intended as it creates the border between South Dakota and Nebraska.

Know your paddling ability! The mighty Missouri River is 20 feet deep or more in some areas. There are no rapids, but high winds and underwater sandbars can make this journey a tough one. We recommend only experienced paddlers venture this route.

LAKES

The sky's the limit when you head to the lake! Hang on the beach and take in the sights and sounds of the water. Go for a swim, practice your paddling skills, fish for that night's dinner, or picnic with a view. Whatever you decide to do, we recommensd you unplug and be present to soak it all in.

Learn more at www.southeastsouthdakota.com/outdoor-adventure/canoeing-and-kayaking.

THE THRILL OF THE HUNT

"The moment." You know, that space in time when you see that flamboyant tom or majestic buck in the distance, and you lock in on them, waiting for JUST the right moment to take your shot. Your heart is racing, and the world around you is still. Your every bit of concentration is on that scope. And then you take a slow breath in, hold it, and fire.

It's a one-of-kind rush you need to experience for yourself, and we have just the playing field to do it. Our landscape is great for hunting pheasant, whitetail deer, turkey, goose, and duck. Hunters can also find partridge, quail, dove, coyote, and fox.

Not only is the sport one you'll never forget, but the memories made with family and friends when you hunt together are just as special. And being able to fill your freezer with meat that you caught yourself? That will leave you feeling good whenever you "pull something out for dinner."

Southeast South Dakota offers access to 4.5 million acres of public land for hunting adventures. Many private landowners will allow you to hunt on their property if you ask permission first and honor the privilege of hunting their land. We also have private reserves offering guided hunts, lodging and meals. Whatever you decide to do, take a photo of your accomplishment and tag #SESouthDakota!

Find more information on hunting in Southeast South Dakota at www. southeastsouthdakota.com/outdoor-adventure/hunting.

SO MANY OPTIONS. SO LITTLE TIME

Our region is small but mighty when it comes to giving fishermen choices and variety. With over 175 natural and manufactured lakes, 3 major rivers, and numerous species to fish for, you'll want to come back time and again to experience it all.

In our waters, you'll find walleye, sauger, channel catfish, large-mouth bass, smallmouth bass, bullhead, bluegill, perch, and crappie. You'll also find paddlefish, shown on the right, a primitive species native to the Missouri River. These prehistoric fish can weigh more than 60 pounds and can survive for more than 50 years in the wild. You'll have to apply for a tag to catch one of these unique fish. Visit www.gfp.sd.gov/paddlefish to learn more.

Keep wintertime from slowing your fishing hobbies. Many of our lakes are hot spots for ice fishing. Just stop by one of our great outfitters and get the right gear to keep you safe and warm!

Mark your calendars for Free Fishing Weekend on May 19-21, 2023! South Dakota fishing waters, excluding tribal trust land, are open to anyone to fish without a license. If you love it (which we think you will), you can get your permits after that. Use our website as a resource for more information and share photos on social media with our hashtag! #SESouthDakota

Get more details about fishing in Southeast South Dakota by requesting our 2023 Sportsman's Guide, a printed publication to keep on hand as a trusty resource. Request yours online at www.southeastsouthdakota.com/visitor-information/travel-quides-brochures.
